

Company Overview

FLEXTIME

FLEXTIME

Founded in Dublin, Ireland in 1983, with offices in the UK, FlexTime provides the world's leading web and mobile oriented systems for flexible working, staff scheduling and time and attendance.

FlexTime has over 400 customers with more than 5,000 implementations and 200,000 users across government, universities and financial services in Ireland, UK and The Netherlands.

VisionTime enables companies to deploy flexible working hours with all its benefits.

Ask for a separate leaflet on how flexible working arrangements can improve your business.

VisionTime has advanced staff scheduling features that revolutionise the management of staff working time rotas and shift arrangements while also speeding up payroll preparation.
